Dear Margaret

I wondered if you could give me some advice please. I wondered what the protocol is at PC Meetings as I would like to attend and pass on the finding I have from when I came round and spoke to the Residents of Wolsey Croft, Close, Gardens and Cardinel Close about the traffic problems. I don't know if this is possible so would appreciate your advice Regards Maureen

Subject: Creative Shed - new website

Hi Margaret

Marrieanne Pal from Creative Shed wants to come and speak to us at the PC meeting on 19th September. The info she has supplied us with is:-

Creative Shed Agency, are a Sherburn based marketing and web design company. They are currently working on a website for Sherburn - www.sherburninemet.co.uk. It is under construction at the moment but aims to be a functional, modern, up to date, managed website and run for the benefit of the village. The site will contain up to date information and contact details for a variety of groups, organisations, activities and planned events.

Can you please add this to the agenda.

Regards

Paul Doherty

Subject: Delivering the northern powerhouse across Yorkshire

ler,

devolved powers to rebalance the economy, Yorkshire have the opportunity to expand its infrastructure, transport and energy generation. This means local authorities working in partnership with other sectors, and creating LEPs in order to deliver the Northern Powerhouse to enhance the GDP per capita.

In mind, Inside Government would like to invite Sherburn in Elmet Parish Council to attend [Regional Devolution: Delivering the Northern Powerhouse Across Yorkshire](#) on Thursday 22nd September 2016 in Central Sheffield. Delegates attending will hear from experts, and learn best practice case studies to deliver a stronger operating profit for economic growth.

Keynote by Tom Walker, Director, Cities and Local Growth at DCLG
Government's Vision for Regional Devolution

Exploring plans to encourage growth in several city regions and the role of central government in bridging the economic divide between North and South
Looking at the progress of city deals and how the creation of Combined Local Authorities will maximise the effectiveness of regional budgets
Outlining the opportunities posed by the Sheffield City Region devolution deal, with a Mayor to be elected in 2017 with a focus on transport and strategic planning
The next steps for delivering the Northern Powerhouse and how regions can work together to boost economic prosperity in the North

Keynote by Jillian Thomas, President, Sheffield Chamber of Commerce and Industry
The Opportunity for Sheffield to Compete as a Regional Power

Enhancing cross sector working by creating partnerships with the private sector to promote enterprise and help grow the regional economy
Remaining commercially focused to deliver profitable growth and ensure there is a return on investment from the devolution deal
Becoming internationally competitive in order to deliver long term sustainable employment in the region
Emphasising post-16 education and skills on a regional basis using an Area Based Review to deliver a better service at local level and keep skilled young people in the region

Subject: Draft Car Park Strategy
Attachments: Car Park Strategy Key Points.doc; Car_Park_Consultation_Draft.pdf

Hi All

SDC have published the draft Car Park Strategy and I am attaching a copy, together with an extract of some of the key points as they relate to us. The consultation period runs until the 28th November.

Some of the figures were interesting so I did a quick comparison:-

Selby

819 Council 941 Private Total 1760 parking spaces. Population 14731
Number of residents per Parking Space = 8.37

Tadcaster

244 Council 112 Private Total 356 parking spaces. Population 6003
Number of residents per Parking Space = 16.87

Sherburn in Elmet

44 Council 136 Private Total 180 parking spaces. Population 6657
Number of residents per Parking Space = 36.98

NB we have 718 homes being built which at an average of 2.3 people per household (2011 census) adds another 1651 to the population. So with a population of 8308 we will have 46.15 residents for each parking space

@ Margaret. Please add this as an agenda item for the next PC meeting.

25 August 2016

Dear Mrs Gibson,

Following a recent visit from Maureen who lives at 30a Wosley Croft asking my opinion on the traffic using the road. I have now decided to write to the Parish Council to inform them of three incidents in the last month.

On two occasions while I was returning home in my car I have had to swerve onto the footpath to avoid on coming cars that have been on the wrong side of the road and, in my opinion, in excess of 30mph. Both have been on a week day and at approximately 3pm.

The third incident was on Friday, 19th August, While I was reversing my car onto my drive a motorist came round from Wosley Croft at speed, made no attempt to slow down, let alone stop and came very very close to hitting me, to be honest I don't know how they got through!

I feel its time action is taken to stop the through traffic and if the only option is to block the western (shops) end of Wosley Croft I am all in favour. I will hopefully attend the next PC meeting on the 19th September.

I will now report all further incidents to the Parish Council and the Police.

Back in April 2015 I complained to the Police about the traffic, please find enclosed a copy of the Emails for the Councils perusal.

I will be giving a copy of this letter plus the email to Maureen.

Yours sincerely

Stephen Lancaster

Subject: Selby district car park strategy update

A new approach for car parking - and you can have a say

Selby District Council has put forward a new approach for car parking, and soon you can have a say about these proposals.

From 2 September until 12 December, the Council is seeking comments about the principles of the proposed new car park strategy, which considers the overall charging policy and the look and feel of car parks.

The Council wants to make best use of its car parks to support local businesses and visitor numbers, as part of the long-term ambitions to make the district a great place to do business and a great place to enjoy life.

At this stage the strategy focuses on the principles of how to improve the customer experience at car parks and increase throughput to help people shopping, working in or visiting the area. Whilst it does not set out any explicit charges for individual car parks, we will be reviewing the current tariffs and considering a number of options including no increase or a reduction in tariffs. There are also proposed changes to parking arrangements in Sherburn and Tadcaster, as part of a strategy to free up parking spaces for people using local shops and services.

The District Council's Executive member with responsibility for economic development, Cllr Chris Metcalfe, explained, "When developing this strategy we've considered what influences customers' parking choices and identified changes to meet our customers' needs. This is about responding to the needs of our local retailers, supporting increased use of our town and village centres and encouraging their economic growth and vitality.

"It's part of a much wider approach from the District Council to support business growth across the district, which is a key focus for us."

Details of the consultation will be available on our website from 2 September: www.selby.gov.uk

Communications

**CORRESPONDENCE RECEIVED/SENT SINCE
AUGUST 2016
MEETING
FOR INFORMATION ONLY**

CORRESPONDENCE RECEIVED

- 18/8/16 Confirmation of RoSPA September play check

CORRESPONDENCE SENT

- 17/8/16 Business Maps- no thank you to maps of the vuillage.
17/8/16 NYCC confirming no objections to closing of small path Moor Lane.
17/8/16 YLCA confirming booking for Clerk on October 1st finance training.

MINUTES FROM EXTRAORDINARY PARISH COUNCIL MEETING HELD ON THURSDAY 25TH AUGUST 2016 IN THE EVERSLEY PARK CENTRE AT 7PM.

Present; Councillors P. Doherty (Chairman), C. Lake (Vice Chairman), D. Buckle, Mrs B. Thwaite, Mrs J. Brown, M. Hobson and Mrs M. Gibson (Clerk)

Also present; 2 members of the public.

Apologies were received from Councillors B. Packham, M. Jordan, Mrs J. Prescott and L. Wake.

The Chairman reported that this meeting had been called, as promised, to discuss possibilities of what can be done to enhance the appearance of the Village Centre works.

Resident stated that the tarmac does not enhance the area, the paving stones which were removed were far nicer and easier to sweep and keep clean and tidy. Resident also asked when the benches are coming - Chairman reports that the stone has now been received and they should be installed in the near future. Resident stated that there is block paving under the tubs which cannot be seen. Chairman stated this was done for Health and Safety reasons. Councillor Hobson stated and resident agreed that this tarmac area would be very slippery in wet or icy conditions and the gradient made this even worse.

Residents also asked about trees which were unsuitable for the areas, too big for tubs and dying off. Chairman reports the contractors have to replace these within the 12 month period. Councillors are monitoring these trees carefully. Resident stated that a Horticulturist had told her these trees were far too big for the tubs and would not be hardy in the winter anyway. Councillors agreed we should make sure these are replaced with a suitable tree and monitor carefully that any replacements are under guarantee for 12 months also.

The Chairman handed out options which the Architect had come up with for this area, and also explained that at the present time there is only approx. £3500 left in the contingency fund and this could reduce if there are any unexpected costs involved in the benches and the sculpture.

Option 1

Was just to extend the paving from the tubs to properties to break up the area better this would cost £6,488.77

Option 2

This option was for more paving and bins at a cost of £15,303.58

Option 3

This would replace all the tarmac and total cost was £22,346.25

Chairman explained that being realistic the only possible option was No 1. **It was agreed that when we know what money is left in the pot the Finance committee look at possibility of getting Option 1 work done.**
