4. British Gypsum Traffic Movements.

Chairman reports that he and Councillor Packham met with residents on Bishopdyke Road regarding their concerns about large HGVs along this road, not sure if they were from Gypsum or the Tyre recycling plant. Councillor Packham has had a word with the Enforcement Officer and was meeting next week regarding this area. The officer states she was not sure how the tyres got to the site, but Chairman had seen the same type of wagon at the Tyre site. The recent fire at the site has stopped all traffic to this area at present so Councillor Packham has asked that the traffic count is stopped at present as there is literally no traffic to this site at the moment.

2013/1262/FUL

This plan received today which needs careful consideration and not time to deal with this tonight. Chairman will call another meeting to deal with this as we have until the 6th February to make our comments.
